## PRODUCT SHEET

### Ergospirometer Amedtec Ergostik

The Ergostik-System sets new standards for ergospirometer. The software can be operated intuitively and enables fast results. The combination of a stress test ECG, the exterior flowsensor as well as the stable O<sub>2</sub>/CO<sub>2</sub> sensors guarantee precise results in the cardiopulmonary functional diagnostics.

#### TECHNICAL DATA:

---

Components:  
PC system  
ECG trolley  
Ergometer  
Interface for Ergospirometry  
Ergostik system  
Calibration pump  
Patient cable

#### SERVICE:

Annual Safety Check

#### SERVICE:

Calibration

#### SERVICE:

User Training
